**REVIEW, RESEARCHES, INSTRUMENTS**

Nano-scale structures in microfluidic devices (review) <i>A. A. Evstrapov</i>	3
Microfluidic chips with integrated nanoscale structures for biological objects fixation <i>I. V. Kukhtevich, A. S. Bukatin, I. S. Mukhin, A. A. Evstrapov</i>	17
Specialized SPM probe based on wireframe nanowhisiker structures <i>I. S. Mukhin, M. S. Mukhin, A. V. Feklistov, A. O. Golubok</i>	23
Structurally organized polymer nanocomposites including the multi-layer carbon nanotubes <i>Z. Z. Latypov, O. F. Pozdnyakov, E. O. Popov</i>	30
Specialized mass spectrometer MTI-350GS for technological control of uranium hexafluoride sublimate production. Part 2. Construction features of the mass spectrometer MTI-350GS <i>D. N. Kuzmin, Zh. A. Savina, M. N. Kuzmin, A. V. Saprygin, V. A. Kalashnikov, A. B. Maleev, D. V. Novikov, S. I. Shvetsov, L. N. Gall, M. V. Svedentsov, A. D. Andreeva</i>	35
Solid body and liquid superficial structure study by ellipsometry considering mathematical inverse problem incorrectness. Part. 3. On the determination of all the parameters of semiconductors with superthin oxide films on the basis of the real experiment <i>A. I. Semenenko, I. A. Semenenko</i>	42
Flow micro sensor of thermal type for air mass flow meter <i>O. V. Sazhin, Yu. V. Pervushin</i>	52
The scheme with two detectors for accounting nonspecific absorption for photometric flow analysis <i>L. A. Kostereva, A. L. Moskvin, A. V. Mozguchin, E. V. Telegina</i>	62

**MATHEMATICAL MODELS**

On the instrument function of electrostatic electron spectrometers <i>Yu. K. Golikov, N. K. Krasnova, I. A. Martsinovski</i>	68
Time-dependent pseudopotential and its application for description of the averaged motion of the charged particles. Part 2. General expression for time-dependent pseudopotentials <i>A. S. Berdnikov</i>	83
Radiation pressure in three-dimentional acoustic media, described by one-dimentional Helmholtz equation <i>B. P. Sharfarets</i>	97
Method of efficiency increasing for independent components and convolurion analysis procedures that are used for signal form reconstruction on the base of mixture measurements <i>A. V. Merkusheva, G. F. Malychina</i>	103
Radiation pressure on nonhomogenous inclusions in the field of progressive plane wave on the infinite string <i>B. P. Sharfarets</i>	118

**DATA PROCESSING AND DATA PRESENTATION**

Formalisation method for decription of embedded system behavior during software development <i>N. V. Krasnov, A. V. Nebylov, A. V. Samokish</i>	125
--	-----

## CONTENTS

3

Optimization of sigmoid function parameters in real-time PCR signals modeling <i>Yu. V. Belov, A. I. Petrov, V. V. Lavrov, V. E. Kurochkin</i>	130
Fast algorithm of median filtering <i>B. V. Bardin</i>	135
